Email 2: Job/Internship Application

Subject: Data Science Intern Application – Kushagra Goyal

Hi,

I'm reaching out to apply for the Data Science Intern role I found on LinkedIn. I've been following Google's progress in AI for quite some time now, and the chance to learn from your team while helping out on projects would be incredible.

I am currently a B. Tech student at VIT Bhopal University. Most of my day-to-day focus is on getting better at Python and Data Structures. My GitHub portfolio shows some of what I've been working on, and I also have a few problem-solving certifications from HackerRank to back up my skills. Now, I'm looking to take those classroom concepts and apply them to actual work.

My resume is attached so you can see the details of my background. Hopefully, we can hop on a call soon to talk about how I can contribute to the team.

Best,

Kushagra Goyal
